(By Times Special Cable.)
London, Feb. 23.—The Russian tenth army, which, according to an official report, made by Grand Duke Nicholas, the Russian commander-in-chief in the field, to minus one of its corps as a result of the last big battle in East Prussia, now stands at bay along the line of the Newer, Bober and Niemen Rivers, within Russian territory.
The latest Russian official communication relates numerous isolated engagements in this region, which may mean that a counter-offensive is now in progress, but for this there is no confirmation.
On the southern flank also the Russians have claimed local successes, but these are not admitted by the Germans, who claim that the Russian counter-attacks have been repulsed, with heavy losses to the Russians. Both sides claim the capture of many prisoners, and while the fighting has been without definite result, it is evident that the struggle for the passes in the mountains has been extremely sanguinary, and that the combat in Galicia has assumed a more violent character.

SECRET MEETINGS ARE GROWING IN FAVOR
Controllers Had the Industrial Commissioner Closed To-day.

Iron Pipe or Cement For the New East End Sewer.

A discussion on theatres and fire protection was the feature of the Board of Control meeting this morning. The board had a long secret session with industrial commissioner March. Whether that official had anything worth to divulge must remain a secret, for afterwards those present were silent about it to the extreme.
The secret meeting occupied nearly an hour. For some time past Mayor Waters and one or two other members of the board have been toward private sessions, which are so common during the early part of last year. This year it is probable that the board will go farther, for the suggestion has been made this morning that curtains be hung on the doors, thereby preventing worthy citizens or non-worthies from even looking in.
In regard to the theatrical matter, the inspectors reported that they had been to see to it that the theatres are equipped with an electrical fire alarm, and provided for in the by-law, and sections were taken to encourage theatrical proprietors whose houses had more than a thousand to have an experienced fireman in attendance during performances. The inspectors reported some weeks ago that in other respects the by-law was being carried out.
City Engineer Maclellan reported regarding the 2,000 feet of pipe required in connection with the sewerage system, and stated that the difference in price was very great. He recommended reinforced concrete for 170 feet of the main.
"How many companies make the reinforced concrete?" asked the mayor.
"Two," replied the engineer.
The board developed that Willford Hottel, president of the Board of Sewerage, was one of the men of the concern and this brought to notice the matter with the

(By Times Special Cable.)
London, Feb. 23.—Eden Philpotts, the socialist, in a article entitled "Neutrality and Morals," published in the Daily Chronicle, says:
"You are tempted, and just now it is righteousness, but it is understood the sense of honor, integrity and justice has many friends left, in the character of civilization."
The writer refers to the recent publication of "War Bonds of Germany," which, he says, leaves neutral nations outside the pale of civilization.
"There is a simple explanation. The neutral principle is now tacitly perverted to the service of Germany, and Christendom has determined that to protect against evil, even in the case of the founder, is a duty prohibited to neutral nations during the war."
"We may control the individual who produces munitions," he says, "but we cannot control the practice of it, but should a civilized nation proclaim her neutrality, she is bound to refuse to supply the arms and munitions which are the lifeblood of the war."
"We may control the individual who produces munitions," he says, "but we cannot control the practice of it, but should a civilized nation proclaim her neutrality, she is bound to refuse to supply the arms and munitions which are the lifeblood of the war."

TEUTONS CALL OLDER TROOPS
(By Times Special Cable.)
Geneva, via Paris, Feb. 23.—German youth to the age of forty-eight eligible for service with the Landsturm troops have been recalled from Switzerland and it is reported here those living in other neutral countries have also been directed to join the colors not later than March 2. Austria likewise has summoned from neutral countries the age of forty-five. The order affects 2,000 living in Switzerland.

SAVED KUCK
New Germany Aiming at the German Flank

And Changed Course of the Drive Toward Paris.

Berlin, Feb. 10.—(Correspondence of the Associated Press)—An aeroplane scouting flight which made history has just come to light, almost six months after it took place. The report of the two aviators making the flight toward the south from their dash toward the German flank on Paris in August, and changed the whole line of battle in the west. A striking feature of the flight, however, was that its course did not follow the line of the front. The flight of the light, taken from the German magazine devoted to aeronautics, follows:
"It happened on the occasion of our dash on Paris." The inhabitants of the "City of Light" received a daily visit from German aeroplanes. The latter were accustomed to drop a couple of bombs every day, but their visit here was not the object of their programme. The chief thing was to keep watch of the movements of the Paris reserve army. This army had marched up with its front toward the east, where it again.

JUMPED FOR LIFE
Fred Hatch Caught On Track With Gates Down.

Only a sudden leap from a buggy saved Fred Hatch from crushed under the fast G. T. R. Buffalo train yesterday afternoon. Mr. Hatch, who is with the Canadian Southern Railway, was on the tracks just as the train came, and he got right into the tracks. The train was stopped, and the engine was backed up. Mr. Hatch was taken to the hospital, and is now recovering from his injuries.

MADE MANAGING DIRECTOR

ANOTHER NORWEGIAN IS SUNK IN THE BLOCKADE

(By Times Special Cable.)
London, Feb. 23, 1.25 p.m.—The Norwegian steamer Regis was sunk off Dover on Monday night by a German submarine. The ship was carrying coal and was bound for London.

SARAPARILLA SPRING TONIC
And Blood Purifier is exceptionally beneficial at this time of year. What are you going to do to keep your system in good health? The answer is, take Saraparilla. It is the ideal spring tonic. It purifies the blood, cleanses the skin of all eruptions and pimples, banishes that tired feeling and makes you feel fit. It is the best tonic for the system. It is the best tonic for the system. It is the best tonic for the system.

A serious charge was preferred against a Stoney Creek youth in police court this morning by a young girl. The complainant also resides there. He is accused of seduction under a promise of marriage. He was not represented by counsel this morning and asked for an adjournment. This was granted, and the magistrate fixed bail at \$1,000.

With a badly discolored optic Mary Miller, of police court fame, accused her son-in-law of aggravated assault. Miller stated that the trouble arose when her son-in-law struck her young daughter, and she intervened. Walter McQuinn was charged with the assault. "One month in jail" said the magistrate. "And you ought to receive more than that. I can judge from this woman's face."

Accused of breaking into the shop of Jacob Chipman and stealing a suit of clothes and a quantity of clothing, William Field, accused of being drunk and disorderly last evening, pleaded guilty. He was remanded to the workhouse for three months.

George Hildgood and Floyd Robinson talked back to Constable Dove last evening, and did not satisfy that worthy. The constable was acquitted. Hildgood and Robinson were charged with being drunk and disorderly. They were remanded to the workhouse for three months.

Last evening John Brody started to row in the free beds at the Central Station. He refused to keep his boat in the row, and was held against him. He told the magistrate that he could not work outside the city and was allowed to go to it.

William Spratt, accused of the theft of some linen from William Hildgood, was remanded until Thursday. He was charged with being drunk and disorderly last evening. He was remanded to the workhouse for three months.

London, Feb. 23.—Artillery engagements have been the distinguishing feature of activity along the western battlefield during the past 24 hours, with the French claiming the destruction of a heavy German gun at Lomme, and admitting that the city of Rheims again has been virtually bombarded.

The only activity in the air has been provided by a single Zeppelin aircraft, which dropped bombs on Calais yesterday, while the only incident of note in connection with the submarine blockade has been the safe arrival at Liverpool of the Gunard Line steamer Orkney from New York Feb. 13.

Nothing so far has been heard in England of the two German submarines overdue at Ouessant, concerning whose safety the Germans are anxious.

(Continued on Page 3.)

BARTON WILL FORCE CITY TO GIVE WATER

Township Claims Works Committee is Trying to Put Something Over.

Mayor Informed that C. N. R. Officials Wish to Open Negotiations.

The conference last night between representatives of the Works Department and Barton Council resulted in the city offering to give water to a defined area on the mountain of the township.

The township claims responsibility for the mountain drain, which last year cost the municipality \$1,500. The sub-committee, under the chairmanship of Ald. T. B. McQuinn, who has been working for some time to get the township to take on the mountain drain, declared that even if the Government had to be approached, the water would be had for the section of the township lying immediately east of the mountain.
